

AUSTRALIAN SPORTS OUTREACH PROGRAM
SPORT DEVELOPMENT GRANTS 2010-11 (Non Pacific)
PROJECT COMPLETION REPORTING TEMPLATE

GENERAL INFORMATION

This Project Completion Report Template for the Australian Sports Outreach Program (ASOP) Sport Development Grants aims to provide you with a straightforward way to report to the Australian Sports Commission when you complete your project.

The report is designed to provide us with a simple summary of:

- what you wanted to achieve
- whether you achieved this
- the community target groups the project was aimed at
- the numbers of people who participated and benefited from the project
- any problems you experienced, and
- any future plans you have, based on the project.

Some of the basic information we would like you to tell us about the project you will be able to take from your project application. We also want to know what happened while the project was under way, what the outcomes of the project were and some information about the people who participated in the project.

The reason we are asking you for this information is so that the Australian Government has information about activities it has funded, which can help it provide better reports about outcomes of sport development initiatives, which may be useful in planning or supporting future projects.

As well as completing this short report, you may send us additional information and photographs (with descriptions) if you want to.

You may also find the report useful for your own records on the project and to assist in making future grant applications.

When you complete this report, please return it to the ASC by one of the methods below:

- by email to: asopgrants@ausport.gov.au
- or by fax to: +61 2 62141451
- or by mail to: **Program Coordinator
