Multi-Factor Authentication setup

Through login

Update Account Information

By setting up Multi-Factor Authentication, you add an extra layer of security to your account sign-in.

If you would like to skip this for now, this can be setup via the Sport Connect portal later.

[Setup Authenticator App](#)

[Skip for now](#)

This step is **not compulsory**. To set up multi-factor authentication, you will need to download an authenticator application from your app store such as Microsoft Authenticator.

1. Select '**Setup Authenticator App**'

Setup multi-factor authentication

1. Download any of these authenticator apps on your phone or tablet from your app store: [FreeOTP](#), [Google Authenticator](#), [Microsoft Authenticator](#)

2. Use your authenticator app to scan the QR code below. If you can't use a QR code, enter the secret key into the app instead.

Secret key:

J53X 052S OFRG 2VTE PE3E E53E KRIX IQ3P

3. The authenticator app will show a security code. Enter the 6-digit code.

6-digit code

Device name (optional)

Device name helps you manage your OTP devices.

[Continue](#)

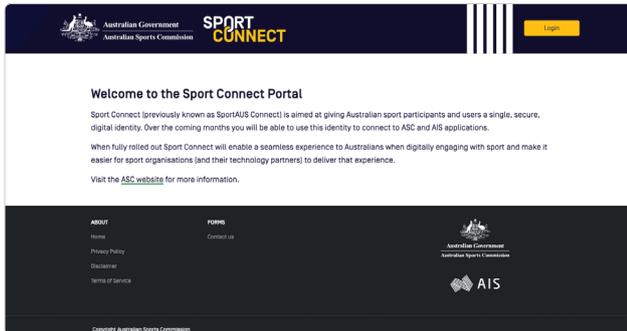

[← Go back](#)

2. Scan the QR code from the application and enter the 6-digit code.

3. Click **continue** to finalise.

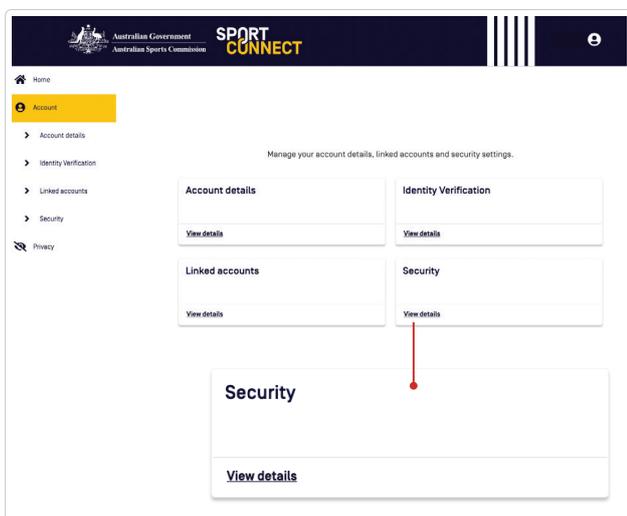

Multi-Factor Authentication setup

Self-service portal

 This step is **not compulsory**. To set up multi-factor authentication, you will need to download an authenticator application from your app store such as Microsoft Authenticator.

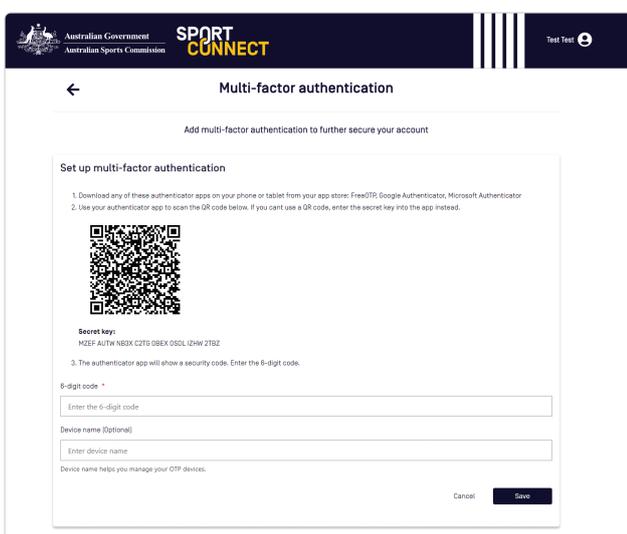

1. Log into the Sport Connect **self service portal**

2. Under '**Account**', select '**Security**'.

3. Click on '**Multi-factor authentication**'.

4. Scan the QR code from the application and enter the 6-digit code.

5. Click '**save**' to finalise.
